

1. Record Nr.	UNINA9910300298703321
Titolo	Uterine Cancer : Screening, Diagnosis, and Treatment // edited by Franco Muggia, Alessandro D. Santin, Esther Oliva
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-319-47269-0
Edizione	[2nd ed. 2018.]
Descrizione fisica	1 online resource (276 pages)
Collana	Current Clinical Oncology, , 2364-1134
Disciplina	616.99466
Soggetti	Oncology Gynecology Radiology Oncology Gynecology Imaging / Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The Essential Epidemiology of Cancer of the Endometrium -- Endometrial Cancer: Screening, Diagnosis, and Surgical Staging -- Imaging in the Diagnosis and Treatment of Endometrial Cancer -- Uterine Cancer: Pathology -- Molecular Pathology and Cytogenetics of Endometrial Carcinoma, Carcinosarcoma, and Uterine Sarcomas -- Prognostic Factors in Uterine Cancer -- Primary Hormonal Therapy of Endometrial Cancer -- Early-Stage Endometrial Cancer: Surgery -- Early-Stage Endometrial Cancer: Radiation—Less May Be More -- Therapeutic Modalities in Early-Stage Uterine Papillary Serous Carcinomas, Carcinosarcomas, Clear-Cell and Mixed Histology Carcinomas: Treatment of Choice Is Combined Chemotherapy and Radiation -- Treatment of Advanced and Recurrent Carcinoma: Chemotherapy -- Treatment for Advanced and Recurrent Carcinoma: Combined Modalities -- Management of Uterine Sarcomas -- Future Directions and New Targets in Endometrial Cancer.
Sommario/riassunto	There are more than 63,000 new cases of uterine and endometrial cancer each year in the United States, up from approximately 41,000

when the first edition of Uterine Cancer was published in 2009. A book focusing on these cancers was timely, with emergent sophistication in diagnosis increasingly impacting clinical decision-making. However, five years later, the need for an updated book on this topic is even stronger as oncologists recognize opportunities to impact the outcome on women that are increasingly diagnosed with these malignancies. Uterine Cancer: Screening, Diagnosis, and Treatment, Second Edition, part of the Current Clinical Oncology series, enhances the awareness on this somewhat neglected area of therapeutics, helping to integrate targeted therapies into the management of women with uterine cancer. Written by experts in the field in a highly practical and comprehensive manner, it is a must-have for all gynecological residents and fellows, as well as gynecological oncologists, medical oncologists, radiation oncologists, and family practice doctors who wish to provide their patients with the best possible care.
