

1. Record Nr.	UNINA9910300299303321
Titolo	Management of Failed Shoulder Surgery // edited by Giuseppe Milano, Andrea Grasso, Angel Calvo, Roman Brzóska
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2018
ISBN	3-662-56504-8
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (245 pages)
Disciplina	617.1027
Soggetti	Orthopedics Sports medicine Physiotherapy Surgical Orthopedics Sports Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Shoulder instability repair: Why it fails -- How to manage failed anterior arthroscopic repair -- How to manage failed anterior open repair -- How to manage failed posterior and MDI repair -- Failed Arthroscopic Anterior Instability Repair: Case Example -- Failed Posterior Instability Repair: Case Example -- Failed Open Anterior Instability Repair: Case Example -- The disabled throwing shoulder: when and how to operate -- How to manage failed SLAP repair -- Biceps disorders: when and how to operate -- Acromioclavicular joint instability: when and how to operate -- Failed SLAP Repair: Case Example -- Failed Biceps Treatment: Case Example -- Failed AC Joint Treatment: Case Example -- Anatomical shoulder arthroplasty: How it works / Why it fails / How to manage failure / Future directions to prevent failure -- Failed Total Shoulder Arthroplasty: Case Example -- Reverse shoulder arthroplasty: How it works / Why it fails / How to manage failure / Future directions to prevent failure -- Failed Reverse Shoulder Arthroplasty: Case Example -- Rotator cuff repair: Why it fails -- How to manage failed rotator cuff repair: Arthroscopic revision surgery / Biologic augmentation / Latissimus dorsi transfer -- Failed Cuff Repair: Case Example.

Sommario/riassunto

In this book, leading European shoulder experts review the current status in the management of failures of surgical treatment of different pathological conditions around the shoulder, such as instability of the glenohumeral joint and the acromioclavicular joint, rotator cuff disease and pathology of the long head of the biceps tendon, and glenohumeral osteoarthritis. The aim is to equip readers with clear guidance on how to manage such failures in everyday practice. There is a particular focus on all aspects of the management response to failure of shoulder arthroplasty. Information is provided on the reasons for failure of the various procedures, and key points on controversial topics are highlighted. Furthermore, case examples are used to present challenging scenarios and their possible solutions. The numerous high-quality illustrations aid comprehension, and readers will also have access to supplementary online videos. The book, published in cooperation with ESSKA, will be invaluable for orthopaedic surgeons and highly relevant for other medical and health practitioners such as sports medicine doctors, physical medicine doctors, and physical therapists.
