

1. Record Nr.	UNINA9910300312003321
Titolo	Contemporary Management of Jugular Paraganglioma // edited by George B. Wanna, Matthew L. Carlson, James L. Netterville
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-319-60955-6
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (XI, 260 p. 200 illus., 142 illus. in color.)
Disciplina	617.51
Soggetti	Otorhinolaryngology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	History of Jugular Paraganglioma -- Surgical Anatomy of Jugular Paraganglioma -- Presentation and Differential Diagnosis of Jugular Paraganglioma -- Radiologic Evaluation of Jugular Paraganlioma -- Natural History of Jugular Paraganglioma -- Perioperative Considerations and Management -- Preoperative Embolization of Jugular Paraganglioma -- Surgery for Jugular Paraganaglioma -- Subtotal Resection of Jugular Paraganglioma -- Radiotherapy/Radiosurgery for Jugular Paraganglioma -- Facial Nerve Rehabilitation -- Familial Jugular Paraganglioma and Genetic Testing -- Special Considerations in Management of Jugular Paraganglioma.
Sommario/riassunto	This text serves as a useful resource for physicians managing jugular paragangliomas;the most common tumors of the jugular foramen. It reviews the challenges often faced in the management of these tumors due to the close proximity to critical adjacent structures including the dura, major vasculature, otic capsule and coursing cranial nerves. More conservative treatment options such as single fraction or fractionated stereotactic radiotherapy, subtotal tumor resection, and conservative observation that minimize morbidity and improve patient function and quality of life is also covered. Contemporary Management of Jugular Paraganglioma provides a concise yet comprehensive overview of the current status of the field that will help guide otolaryngologists, neurosurgeons, facial plastic surgeons, speech pathologists and

residents involved in the care of patients with jugular paraganglioma.
