

1. Record Nr.	UNINA9910300330703321
Titolo	The Concise Manual of Apheresis Therapy // edited by Eisei Noiri, Norio Hanafusa
Pubbl/distr/stampa	Tokyo : , : Springer Japan : , : Imprint : Springer, , 2014
ISBN	4-431-54412-7
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (416 p.)
Disciplina	615.39
Soggetti	Nephrology Internal medicine Biomedical engineering Internal Medicine Biomedical Engineering and Bioengineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Part 1. Principles and Technologies -- Chapter 1. Theoretical background of Apheresis Therapy - Norio Hanafusa -- Chapter 2. Methods to Remove Pathogens - Tamami Tanaka -- Chapter 3. Decision to Prescribe PE, DFPP, or PA- Rei Isshiki -- Chapter 4. Plasma Exchange - Daisuke Katagiri -- Chapter 5. Double Filtration Plasmapheresis - Daisuke Katagri -- Chapter 6. Plasma Adsorption- Yasuyuki Watanabe -- Chapter 7. Cryofiltration - Daisuke Katagiri -- Chapter 8. Double Filtration Plasmapheresis Thermo-mode (DF Thermo)- Mizuki Yamano -- Chapter 9. Plasma Diafiltration - Hajime Nakae -- Chapter 10. Direct Plasma Adsorption - Mayumi Miwa -- Chapter 11. Cytapheresis - Yuki Itoh -- Chapter 12. Cell-free and Concentrated Ascites Reinfusion Therapy - Norio Hanafusa -- Part 2. Therapeutic Details -- Chapter 13. Choice of Apheresis Therapy- Eisei Noiri -- Chapter 14. Determination of Dosage and Frequency of Therapy- Norio Hanafusa -- Chapter 15. Vascular Access- Koji Okamoto -- Chapter 16. Anticoagulants - Tetsushi Yamashita -- Part 3. Complications -- Chapter 17. Hypotension - Tsuyoshi Inoue -- Chapter 18. Bleeding Complications and Reduction of Coagulation Factors- Norio Hanafusa -- Chapter 19. Allergies - Motonobu

Nakamura -- Chapter 20. Electrolytes Disorders - Motonobu Nakamura -- Chapter 21. Avoiding Complications during Apheresis - Tetsushi Yamashita -- Chapter 22. Infections - Osamu Yamazaki -- Part 4. Autoimmune Disorders -- Chapter 23. Neurological Diseases- Masao Iwagami -- Chapter 24. Dermatological Disorders- Masao Iwagami -- Chapter 25. Kidney Diseases- Masao Iwagami -- Chapter 26. Rheumatoid Arthritis and Collagen Diseases - Hiroko Kanda -- Chapter 27. Blood type incompatible pregnancies - Norio Hanafusa -- Chapter 28. Multiple Myeloma - Tsuyoshi Inoue -- Chapter 29. Dilated Cardiomyopathy - Yoshifumi Hamasaki -- Part 5. Pathogens with Large Molecular Weight.- Chapter 30. Low Density Lipoprotein Apheresis - Kenjiro Honda -- Chapter 31. Endotoxin Adsorption Therapy - Kent Doi -- Part 6. Diseases Necessary to Supply Coagulation Factors -- Chapter 32. Liver Diseases - Kent Doi.- Chapter 33. Thrombotic Thrombocytopenic Purpura and Thrombotic Microangiopathy - Kenjiro Honda.- Chapter 34. Inflammatory Bowel Diseases - Tsuyoshi Inoue. - Chapter 35. Hepatitis C Virus Infection - Shi Lu.- Chapter 36. Drug Intoxications - Motonobu Nakamura -- Chapter 37. Living Related Kidney Transplantation - Hiroo Kawarazaki -- Chapter 38. Peripheral Blood Stem Cell Transplantation- Naoko Watanabe-Okochi -- Part 7. Pediatric Apheresis -- Chapter 39. Apheresis in Children - Motoshi Hattori.

Sommario/riassunto

This pocket-sized manual serves as a concise and ideal reference work for therapeutic approaches using apheresis. Covering both basic theory and clinical details to facilitate improved treatment and patient outcomes, the text considers a variety of diseases, including myasthenia gravis, multiple sclerosis, Guillain-Barré syndrome, chronic inflammatory demyelinating polyneuropathy, nephrotic syndrome, TTP/TMA, dilated cardiomyopathy, and many other conditions. The book also reviews the growing trend toward adopting this unique therapy for a wide range of health management issues such as morbid obesity and/or type 2 diabetes, and for lowering LDL-cholesterol (cholesterol apheresis) in patients unresponsive to medication or lifestyle modification.
