

1. Record Nr.	UNINA9910300332003321
Titolo	Injections in Aesthetic Medicine [[electronic resource]] : Atlas of Full-face and Full-body Treatment // edited by Mario Goisis
Pubbl/distr/stampa	Milano : , : Springer Milan : , : Imprint : Springer, , 2014
ISBN	88-470-5361-7
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (298 p.)
Disciplina	617.956
Soggetti	Medicine Plastic surgery Dermatology Medicine/Public Health, general Plastic Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	1 Fillers -- 2 Aesthetic analysis of the face: the maxillofacial deformity -- 3 Standard Evaluation of the patient: the Merz Scale -- 4 Temporal fossa -- 5 Frontal area -- 6 Malar area -- 7 Tear Trough -- 8 Nasolabial Folds -- 9 Nose -- 10 Marionette Lines -- 11 Lips -- 12 Chin -- 13 Neck -- 14 Arms -- 15 Hands -- 16 Breast -- 17 Gluteus -- 18 Calf -- 19 Scars -- 20 Full-face and Full-body Treatment -- 21 Complications -- 22 Customer Relationship Management in Aesthetic Medicine -- 23 Complementary treatments -- 24 Products.
Sommario/riassunto	The use of injectables, known as dermal fillers, is becoming ever more popular in aesthetic medicine. Full-face and full-body treatments using such fillers are increasingly substituting for various surgical techniques; not only do they provide immediate results at a lower cost, but they also avoid the use of general anesthesia and shorten the recovery period. In addition, dermal fillers can be successfully used for body remodeling, for example in patients with bow legs and those requiring breast remodeling. This book outlines the fundamental principles of the use of different fillers and injection techniques in the treatment of facial and body areas. An impressive collection of sequential color photographs illustrate the procedures step by step and demonstrate

the results. The volume will be an invaluable tool for aesthetic doctors, practicing dermatologists, plastic surgeons, and all other physicians interested in the field of aesthetic medicine. .
