Survey research -- 18. Qualitative research methods. Part 4. Career Development -- 19. Engaging Students in Surgical Outcomes Research -- 20. Finding a Mentor in Outcomes Research -- 21. What Every Outcomes Research Fellow Should Learn -- 22. Funding Opportunities for Outcomes Research --

23. Choosing your first job as a surgeon and health services researcher
-- 24. Building a Health Services Research Program.

Sommario/riassunto

Success in Academic Surgery: Health Services Research is a unique handbook which will help researchers and surgeons in obtaining National Institutes of Health funding and other grants, as well as breaking through the barriers to developing a career in academic surgery. Aimed at surgical residents and young surgical faculty, Success in Academic Surgery: Health Services Research is written by expert authors from around the world who are members of the Association for Academic Surgery, and it offers a practical and personal insight on working in academic surgery.
