

1. Record Nr.	UNINA9910300343103321
Autore	Biswas Arnab
Titolo	Eyelid Tumors : Clinical Evaluation and Reconstruction Techniques // by Arnab Biswas
Pubbl/distr/stampa	New Delhi : , : Springer India : , : Imprint : Springer, , 2014
ISBN	81-322-1874-4
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (288 p.)
Disciplina	616.99484
Soggetti	Ophthalmology Mouth - Surgery Surgery, Plastic Oral and Maxillofacial Surgery Plastic Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	<p>""Foreword I""; ""Foreword II""; ""Preface""; ""Acknowledgments""; ""Contents""; ""Contributors""; ""1: Eyelid Anatomy""; ""1.1 Introduction""; ""1.2 Surface Anatomy""; ""1.3 Overview of Structure""; ""1.4 Skin and Subcutaneous Tissue""; ""1.5 Orbicularis Oculi Muscle""; ""1.5.1 Parts""; ""1.5.2 Function""; ""1.5.3 Innervation""; ""1.5.4 Origin and Insertion""; ""1.6 Submuscular Areolar Tissue""; ""1.7 Tarsi and Orbital Septum""; ""1.7.1 Tarsal Plates""; ""1.7.2 Palpebral Ligament""; ""1.7.3 Lateral Palpebral Ligament""; ""1.7.4 Orbital Septum""</p> <p>""5.1.1 Squamous Papilloma""""5.1.1.1 Introduction""; ""5.1.1.2 Age of Presentation""; ""5.1.1.3 Clinical Features""; ""5.1.1.4 Prognosis""; ""5.1.1.5 Treatment Options""; ""5.1.2 Seborrheic Keratosis""; ""5.1.2.1 Introduction""; ""5.1.2.2 Clinical Features""; ""5.1.2.3 Prognosis""; ""5.1.2.4 Treatment Options""; ""5.1.3 Inverted Follicular Keratosis""; ""5.1.3.1 Introduction""; ""5.1.3.2 Age of Presentation""; ""5.1.3.3 Clinical Presentation""; ""5.1.3.4 Treatment""; ""5.1.4 Keratoacanthoma""; ""5.1.4.1 Introduction""; ""5.1.4.2 Age of Presentation""</p> <p>""5.1.4.3 Clinical Features""</p>
Sommario/riassunto	Eyelid tumors are commonly encountered by oculoplastic as well as

plastic surgeons. The challenge of managing these cases lies not only in performing the surgery in a precise manner in small area, but also in ensuring a visually-appealing cosmetic outcome. This is an innovative and concise portable handbook that guides the surgeons on how to approach and manage these cases in a step-by-step manner. Each chapter of this practical guidebook has outstanding illustrations drawn in full color clearly showing each incision line, flap management, suture placement and its technique, and the expected cosmetic outcome. When a lid tumor is excised, there is a tissue defect that needs to be corrected. Ophthalmologists and plastic surgeons will find this work an excellent reference material to solve the jigsaw puzzle of tissue defects in and around the periorbital region. Importantly, they can quickly refer to the images just before starting a procedure. The author has first explained the anatomical aspects and anesthetic techniques for eyelid surgery, followed by review of the benign and malignant tumors, finally describing the flap creation and reconstruction techniques that are currently used in various lid tumors in an organized fashion.
