

1. Record Nr.	UNINA9910300348403321
Titolo	Atlas of Fine Needle Aspiration Cytology // edited by Henryk A. Domanski
Pubbl/distr/stampa	London : , : Springer London : , : Imprint : Springer, , 2014
ISBN	1-4471-2446-4
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (576 p.)
Disciplina	616.07582
Soggetti	Pathology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- Image-Guided Fine Needle Aspiration Cytology -- Breast -- Head and Neck: Salivary Glands -- Thyroid -- Lung -- Mediastinum and Endobronchial Ultrasound-Guided Transbronchial Needle Aspiration -- Lymph Nodes -- Spleen -- Liver -- Pancreas -- Kidney and Adrenal Gland -- Soft Tissue -- Skin and Subcutis -- Bone -- Pediatric Tumours -- Orbit and Ocular Adnexa.
Sommario/riassunto	This book covers all of the diagnostic areas where FNAC is used today. This includes palpable lesions and lesions sampled using various radiological methods, and correlations with ancillary examinations detailed on an entity-by-entity basis. As well as being a complete atlas of the facts and findings important to FNAC, this atlas is a guide to diagnostic methods that optimize health care. The interaction of the cytologist or cytopathologist with other specialists (radiologists, oncologists and surgeons) involved in the diagnosis and treatment of patients with suspicious mass lesions is emphasized and illustrated throughout. With contributions from experts in the field internationally and abundant colour images Atlas of Fine Needle Aspiration Cytology provides a comprehensive and up-to-date guide to FNAC for pathologists, cytopathologists, radiologists, oncologists, surgeons and others involved in the diagnosis and treatment of patients with suspicious mass lesions.
