	ISBN	3-261-03204-9
	Descrizione fisica	203 p. ; 25 cm
	Collana	Germanistische Lehrbuchsammlung ; 9
	Disciplina	437.09
	Locazione	FLFBC
	Collocazione	437.09 PEN 1
	Lingua di pubblicazione	Tedesco
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNINA9910300349903321
	Titolo	Comprehensive Approach to Adult Congenital Heart Disease // edited by Anita Sadeghpour, Majid Kyavar, Azin Alizadehasl
	Pubbl/distr/stampa	London : , : Springer London : , : Imprint : Springer, , 2014
	ISBN	1-4471-6383-4
	Edizione	[1st ed. 2014.]
	Descrizione fisica	1 online resource (383 p.)
	Disciplina	616.12043
	Soggetti	Cardiology
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
	Nota di contenuto	Epidemiology, Definition and Classification of Adult Congenital Heart Disease -- Practical Issues in Clinical Recognition and Evaluation of Congenital Heart Disease -- Cardiac Defects with Left to right Shunt --

Sommario/riassunto

This book presents unique cases of congenital heart disease (CHD) lesions, both corrected and non-corrected, and provides a thorough overview of the diagnostic tools available. It stresses the importance of taking an appropriate history and performing a suitable physical examination, and goes on to describe electrocardiography, chest X-ray, echocardiography, computed tomography, cardiovascular magnetic resonance imaging, and catheterization to ensure the reader has the best possible guidance in the diagnosis and management of adult CHD. Comprehensive Approach to Adult Congenital Heart Disease offers an extensive account of patients and their diagnostic and treatment modalities from first presentation to latest follow-up. Consequently, this invaluable resource provides a forum for all cardiologists, cardiology trainees and medical professionals seeking further opportunities to immerse themselves in the fascinating and ever-evolving field of adult CHD.
