

1. Record Nr.	UNINA9910300351003321
Titolo	Pediatric Critical Care Medicine : Volume 3: Gastroenterological, Endocrine, Renal, Hematologic, Oncologic and Immune Systems // edited by Derek S. Wheeler, Hector R. Wong, Thomas P. Shanley
Pubbl/distr/stampa	London : , : Springer London : , : Imprint : Springer, , 2014
ISBN	1-4471-6416-4
Edizione	[2nd ed. 2014.]
Descrizione fisica	1 online resource (620 p.)
Disciplina	610 616028 618.920025
Soggetti	Critical care medicine Intensive Care Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Section I. The Gastrointestinal System in Critical Illness and Injury -- Section II. The Endocrine System in Critical Illness and Injury -- Section III. The Renal System in Critical Illness and Injury -- Section IV. The Hematologic System in Critical Illness and Injury -- Section V. Oncologic Disorders in the PICU.- Section VI. The Immune System in Critical Illness and Injury.
Sommario/riassunto	The Editors and contributors of this book take seriously the statement that "For all of the science inherent in the specialty of pediatric critical care medicine, there is still art in providing comfort and solace to our patients and their families. No technology will ever replace the compassion in the touch of a hand or the soothing words of a calm and gentle voice." The four volumes of Pediatric Critical Care Medicine: Basic Science and Clinical Evidence, 2nd Edition detail the continued growth and evolution of the pediatric critical care medicine speciality. They reveal the technological innovations in monitoring and information management and gives witness to the rapid evolution and adoption of novel monitoring techniques, such as continuous venous oximetry and near-infrared spectroscopy. They also cover advances in molecular biology that have led to the era of personalized medicine

with the ability to individualize treatment to the unique and specific needs of a patient. As such this volume and its three sister titles will be of immense value to all studying and practicing pediatric critical care medicine or those involved in the management of this group of patients.

2. Record Nr.	UNISANNIOTO00123239	
Autore	Webster, Richard Allen	
Titolo	L'imperialismo industriale italiano, 1908-1915 : studio sul prefascismo / Richard A. Webster ; traduzione di Mariangela Chiabrando
