Sommario/riassunto	Handbook of Capsule Endoscopy is a concise guide to the clinical diagnostic use of capsule endoscopy, a non-invasive imaging technology of the gastrointestinal tract. This book is written by an international team with over 30 authors from 8 countries, mainly China, Britain, Israel, Italy, Germany, Korea, United Arab Emirates and the United States. This book introduces nearly all aspects of capsule endoscopy, including the six devices currently in use, the set up procedures, indications and contraindications, its application in three organs, special use in pediatrics, safety issues and case presentations. This book is an ideal reference work for physicians and surgeons who wish to utilize this helpful imaging technology. Prof. Zhaoshen Li and Associate Prof. Zhuan Liao are doctors in Changhai Hospital, the

Second Military Medical University, Shanghai, China. Mark McAlindon is the Directorate of Gastroenterology and a Consultant Gastroenterologist and in Royal Hallamshire Hospital, England, the United Kingdom.
