

1. Record Nr.	UNINA9910300359103321
Titolo	Pediatric Urology for the Primary Care Physician // edited by Ronald Rabinowitz, William C. Hulbert, Robert A. Mevorach
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Humana, , 2014
ISBN	1-60327-243-7
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (346 p.)
Collana	Current Clinical Urology, , 2197-7194
Disciplina	618.926
Soggetti	Urology Pediatrics Internal medicine General practice (Medicine) Internal Medicine General Practice / Family Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Fetal Hydronephrosis -- Multicystic Dysplastic Kindney -- Renal Agenesis and Associated Anomalies -- Renal Duplication Anomalies -- Ureteropelvic Junction Obstruction in the Pediatric Population -- Pediatric Renal Trauma -- Renal Stones -- Rediatric Renal Tumors -- Ureterocele -- Megaureter -- Ectopic Ureter -- Cystitis -- Vesicoureteral Reflux -- Posterior Urethral Valves -- Bladder Exstrophy for the Primary Care Provider -- Daytime Wetting -- Tumors of the Lower Genitourinary Tract in Children and Adolescents -- Pediatric Hernias and Hydroceles -- Retractable Testes -- Undescended Tests -- Testicular Torsion -- Testis Tumor -- Adolescent Varicocele -- Phimosis -- Paraphimosis -- Meatal Stenosis -- Balanitis -- Urethrorrhagia -- Urethral Stricture -- Hypospadias -- Chordee -- Epispadias -- Female External Genitalia for Primary Care Providers -- Ambiguous Genitalia -- Myelodysplasia: From Birth to Adulthood -- Continent Urinary Diversion -- Managing Pediatric Lower Urinary Tract Dysfunction and Associated Constipation in the Primary Care Setting -- Pyelonephritis -- Nephrologic Aspects of Urologic Disease -- Pediatric Primary Nocturnal Enuresis (Bedwetting).

Sommario/riassunto

While there are Pediatric Urology texts for pediatric urologists and for general urologists, there are none for primary care physicians. This book is written specifically for the primary care physician, the initial contact for the many children with urologic conditions. The text will assist the primary care physician in the recognition of and participation in the care of children with these common problems including both congenital and acquired conditions. Specific chapters are also dedicated to the management of cases that may include medical and/or surgical intervention. The contributing authors of this text were selected for their internationally recognized expertise and straight forward educational styles in the field of Pediatric Urology. Pediatric Urology for the Primary Care Physician will significantly help our primary care colleagues in the evaluation and management of children with genito-urinary problems.
