Record Nr.	UNINA9910300427203321
Autore	Clark Jane
Titolo	Viewing and Imaging the Solar System [[electronic resource]] : A Guide for Amateur Astronomers / / by Jane Clark
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2015
ISBN	1-4614-5179-5
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (265 p.)
Collana	The Patrick Moore Practical Astronomy Series, , 1431-9756
Disciplina	523.2
Soggetti	Observations, Astronomical
	Astronomy - Observations
	Astronomy
	Astronomy, Observations and Techniques Popular Science in Astronomy
	Handbooks, manuals, etc.
	Solar system
	Solar system Observers' manuals
Lingua di pubblicazione	Inglese
Lingua di pubblicazione Formato	Inglese Materiale a stampa
Lingua di pubblicazione Formato Livello bibliografico	Inglese Materiale a stampa Monografia
Lingua di pubblicazione Formato Livello bibliografico Note generali	Inglese Materiale a stampa Monografia Description based upon print version of record.

How to Find the Solar System Telescope Mounts Telescopes, Binoculars and Light Photographing the Moon and Planets The Solar system in Context Earth's Nearest Neighbor: The Moon The Planets: What You Can Realistically Expect to See The Sun, Star of the Solar System Small Fry: Asteroids and Comets The Apps and Downs of Mobile Devices for Astronomy Observing the Solar System from Your Armchair.

1.

besides a telescope. This book is written by an expert on the Solar
System, who has had a lot of experience with outreach programs, which
teach others how to make the most of relatively simple and low-cost
equipment. That does not mean that this book is not for serious
amateurs. On the contrary, it is designed to show amateur
astronomers, in a relatively light-hearted—and math-free way—how to
become serious.
