

1. Record Nr.	UNINA9910300443503321
Titolo	Skull Base Surgery of the Posterior Fossa [[electronic resource] /] / edited by William T. Couldwell
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-319-67038-7
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (IX, 228 p. 113 illus., 78 illus. in color.)
Disciplina	617.48
Soggetti	Neurosurgery Otolaryngologic surgery Head and Neck Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Surgical Anatomy of the Posterior Fossa -- Retrosigmoid Craniotomy and its Variants -- Middle Fossa and Translabyrinthine Approaches -- Posterior and Combined Petrosal Approaches -- Far Lateral Approach and its Variants -- Endoscopic Endonasal Approach for Posterior Fossa Tumors -- Petroclival Meningiomas -- Meningiomas of the Cerebellopontine Angle -- Tentorial Meningiomas -- Foramen Magnum Meningiomas -- Surgical Approaches for the Removal of Vestibular Schwannomas -- Epidermoid Cyst -- Metastasis to the Posterior Fossa -- Microsurgical Management of Posterior Fossa Vascular Lesions.
Sommario/riassunto	This text provides a comprehensive and contemporary overview of surgical approaches to lesions of the posterior fossa. It will serve as a resource for neurosurgeons and otologists who treat patients with tumors and vascular diseases of the posterior fossa. It provides a concise review of surgical strategies that address the most important pathologies affecting the posterior fossa. It is richly illustrated with photographs of the surgical strategies covered. All chapters are written by experts with world-wide recognition for their contributions in their respective subspecialty. Skull Base Surgery of the Posterior Fossa will be of great utility to Neurosurgeons, Otolaryngologists, and Radiation Therapists with an interest in diseases that affect the posterior fossa,

as well as Senior Residents in Neurosurgery and Otolaryngology, and
Fellows of Skull Base Surgery and Otology.
