

1. Record Nr.	UNINA9910300448103321
Titolo	Surgical Management of Childhood Glaucoma : Clinical Considerations and Techniques / / edited by Alana L. Grajewski, Elena Bitrian, Maria Papadopoulos, Sharon F. Freedman
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-319-54003-3
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (197 pages) : illustrations
Disciplina	617.741059
Soggetti	Ophthalmology Pediatrics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Chapter 1 Surgical Management of Childhood Glaucoma: Clinical Considerations and Techniques—Introduction -- Chapter 2 Anesthetic Considerations in the Evaluation of Children with Glaucoma and Associated Conditions -- Chapter 3 Pediatric Exam Under Anesthesia -- Chapter 4 Angle Surgery: Goniotomy -- Chapter 5 Angle Surgery: Trabeculotomy -- Chapter 6 Pediatric Trabeculectomy -- Chapter 7 Glaucoma Drainage Devices -- Chapter 8 Cyclodestruction -- Chapter 9 Other Procedures for Pediatric Glaucoma Surgery: New Devices and Techniques -- Chapter 10 Surgical Considerations in Children with Corneal Opacities and Cataracts -- Chapter 11 Childhood Glaucoma Surgery in Developing Countries -- Chapter 12 Impact of Childhood Glaucoma and Glaucoma Surgery on Quality of Life.
Sommario/riassunto	This comprehensive guide thoroughly covers the characteristics and presentations of childhood glaucoma, as well as all surgical options for treatment. <i>Surgical Management of Childhood Glaucoma: Clinical Considerations and Techniques</i> addresses a variety of surgical methods, ranging from angle surgery with recent modifications to cyclodestruction, reviewing each option's particular set of advantages and disadvantages, and features illustrations and instructional videos of these techniques. Later chapters consider best-practices to providing surgery in developing countries, surgical considerations for

patients with corneal opacities and cataracts, and the impact of glaucoma upon quality of life of pediatric patients. Written by leaders in the field of ophthalmology, this book offers readers an exceptional resource on the evaluation and surgical management of childhood glaucoma.
