

1. Record Nr.	UNINA9910300449203321
Autore	SUH Man Koon
Titolo	Atlas of Asian Rhinoplasty // by Man Koon SUH
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2018
ISBN	981-10-8645-1
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (XIX, 890 p. 895 illus. in color.)
Disciplina	617.952
Soggetti	Plastic surgery Plastic Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Surgical Anatomy and Physiology of the Nose -- 2. Preoperative evaluation, nasal analysis for the rhinoplasty -- 3. Incision, approach and perioperative medications -- 4. Harvest of autogenous tissue -- 5. Implants & allograft materials used for the Asian rhinoplasty -- 6. Dorsal augmentation using the implants -- 7. Dorsal augmentation using the autogenous tissue -- 8. Midvault surgery_humpectomy, osteotomy -- 9. Tip plasty_Suture technique and cartilage graft -- 10. Optimal Tip projection in Asian noses -- 11. Tip reduction surgery_height, length and volume -- 12. Short nose correction -- 13. Correction of alar-columellar disproportion -- 14. Correction of nostril and alar base -- 15. Deviated nose correction and functional rhinoplasty -- 16. Secondary rhinoplasty -- 17. Complications of the rhinoplasty.
Sommario/riassunto	This superbly illustrated atlas, featuring approximately 2,500 high-quality illustrations, will help all surgeons who perform rhinoplasty in Asian patients to achieve excellent aesthetic and functional outcomes. The differences in nasal anatomy and aesthetic goals between Asian and Western individuals are clearly explained, and the surgical materials appropriate to Asian rhinoplasty are identified. The full set of techniques employed in Asian rhinoplasty are then described and illustrated step by step, taking into account the important advances achieved in recent years. Among the procedures covered are dorsal augmentation using implants and autogenous tissue, tip plasty, tip

reduction surgery, short nose correction, humpectomy, correction of alar-columellar disproportion, nostril and alar base reduction, and deviated nose correction. Guidance is offered on management of potential complications, and secondary rhinoplasty is also discussed. This book will enable surgeons to enhance the appearance of the nose in a way that is fully consistent with the other facial features of Asians.
