

1. Record Nr.	UNINA9910300452303321
Titolo	Facial Bone Contouring Surgery [[electronic resource] ] : A Practical Guide // edited by Sanghoon Park
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2018
ISBN	981-10-2726-9
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (IX, 214 p. 153 illus., 137 illus. in color.)
Disciplina	617.952
Soggetti	Plastic surgery Plastic Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Part I. General -- 1. Facial Bone Contouring Surgery in Asians, Backgrounds -- 2. Essential Points in Surgical Anatomy for Facial Bone Surgery -- 3. Standardization of Surgical Approach and Instruments in Facial Bone Surgery -- Part II. Mandible -- 4. The Aesthetic Lower Face Analysis: Diagnosis & Selection of Surgical Procedures -- 5. The Standard Mandible Reduction with Intraoral Approach -- 6. The Mandibular Corticectomy and Shaving Technique -- 7. The Mandibular Angle Reduction with Retromandibular Approach -- 8. The Osseous Genioplasty -- 9. The Mini V-line Surgery -- 10. The V-line Surgery -- 11. Alloplastic Augmentation of the Mandibular Angle and Chin -- 12. Secondary and Revisional Mandibular Contouring Surgery -- 13. Soft tissue management in Mandible Reduction Surgery -- 14. Treatment of Long Face or Prognathic Lower Face with Facial Bone Contouring Surgery -- Part III. Midface -- 15. The Aesthetic Midface Analysis: Diagnosis & Surgical Planning -- 16. The Standard Reduction Malarplasty with Intraoral Approach -- 17. The Reduction Malarplasty with Coronal Approach -- 18. The Mini-zygoma Reduction Surgery -- 19. The Orbito-malar Complex Reduction with Extended Approach -- 20. Alloplastic Augmentation of the Midface -- 21. Secondary and Revisional Reduction Malarplasty -- 22. Ancillary Procedures of Reduction Malarplasty for Soft-tissue Management.
Sommario/riassunto	This book is a practical and detailed guide on how to perform a range of surgical techniques for facial bone contouring. Based on the clinical

experiences gained by the authors while carrying out more than 10,000 facial bone surgeries at their clinical institute in Seoul, Korea, each procedure is meticulously described and illustrated, step by step. Importantly, careful attention is paid to the impact of ethnic differences on surgical technique and goals, drawing on lessons learned during the treatment of patients from approximately 30 countries. Readers will also find instructive accompanying case studies and copious guidance on preoperative patient assessment, potential complications, and complication management. Facial bone contouring surgery has been gaining popularity not only in many Asian countries but also in Western countries, especially those in which there are sizable Asian populations. In enabling readers to learn and master the various techniques of facial bone surgery, and to achieve optimal outcomes in clinical practice, the book will be of immense value to plastic surgeons in both Asia and the West.
