

1. Record Nr.	UNINA9910300455403321
Titolo	Surgery of Trismus in Oral Submucous Fibrosis [[electronic resource]] : An Atlas // edited by Madan Kapre, Sudhanshu Kothe
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2018
ISBN	981-10-4892-4
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (IX, 62 p. 77 illus. in color.)
Disciplina	617.522059
Soggetti	Oral surgery Maxillofacial surgery Oral and Maxillofacial Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- Clinical Presentation -- Anaesthesia for Surgery of Trismus -- Surgical Release Procedures -- Coronoidectomy -- Philosophy of Reconstruction -- The Fat Flap -- Nasolabial Flaps -- Tongue Flap -- Mandibular Mucoperiosteal Flap -- Palatal Flap -- Platysma Myocutaneous Flap -- Platysma Myofascial Flap -- Postoperative Care -- Evolution of Protocols of Surgery of Trismus of OSMF.
Sommario/riassunto	This book offers an essential guide to treating trismus due to oral submucous fibrosis (OSMF) – a specific condition involving the mouth that is common in geographical areas where chewing of betel nut and tobacco is prevalent, particularly in Central India. Based on the editors' more than two decades of experience employing techniques such as platysma flap and mandibular mucoperiosteal flaps to treat trismus of OSMF, the book will help surgeons who encounter these disorders to create their own management protocols. The initial chapters detail how the authors themselves have dealt with this disorder; the following chapters consist of separate entries, each of which contains clinical photographs and a brief description. Readers can either read the atlas as a textbook, or as a reference work. The book will benefit practitioners of ENT, head and neck, maxillofacial, dental and plastic surgeries, as well as general surgeons and postgraduate students.
