Sens -- Future uncertainty, strategic defense, and North American defense cooperation: Rational institutionalist

arguments pragmatically suggest NORAD's adaptation over replacement -- Part IV: The Future of North American Strategic Defense -- Beyond Modernization -- NORAD's Future: St-Amand's Revelation, Gortney's Complaint and VIGILANT SHIELD 17's Component Command -- NORAD, Tactical Fighter Modernization and the F-35: Operational Considerations, Process and Politics -- The Arctic and the Strategic Defence of North America: Resumption of the "Long Polar Watch -- Conclusion -- The Strategic Defense of North America in the 21st Century.

---

Sommario/riassunto

The protection of the homeland is the top priority for U.S. national security strategy. Strategic defense, however, has been an overlooked dimension in the vast literature on the U.S. strategic posture, with even less attention given to the necessity and dynamics of security collaboration within North America. Drawing on the expertise of scholars from the U.S., Canada and Mexico, the book offers a wide range of perspectives on recent trends in, and future prospects for, the military and political evolution of North American strategic defense. North American strategic defense is a topic too often taken for granted: as this excellent book shows, that is a mistake. In the 21st century, perhaps even more than the 20th, it will be an issue of cardinal importance to both the United States and Canada. Eliot A. Cohen Robert E. Osgood Professor of Strategic Studies, Johns Hopkins School of Advanced International Studies NORAD's binational command is unique, and this timely and ambitious book examines its continued relevance to North American defense against a host of new global threats. It broadens the focus of what we mean by North American defense, contemplates how we might include Mexico in various regional security arrangements, and considers the dynamics of expanded North American interdependence in the Trump era. Laura Dawson Director of the Canada Institute, Woodrow Wilson International Center for Scholars North American Strategic Defense in the 21st Century is an important book. This edited volume brings together a galaxy of stars, both rising and established, with outstanding credentials regarding NORAD and associated matter in the study of security. This original and well-written volume is the first of its kind since the Cold War – long overdue and impressive in contents. The chapters cover both panoramic issues and more specific matters, and the collection is essential reading for academics, policy-makers and the general public. Patrick James Dornisfe Dean's Professor, School of International Relations, University of Southern California.

Nota di contenuto	Front Matter -- Table of Contents -- Prologo -- Presentacion Todos los tiempos en este presente -- Introduccion -- Capitulo I. Hasta que el silencio se convierta en sonido -- Capitulo II. ¿Silencios? -- Capitulo III. Memento mori -- Capitulo IV. La necesidad de historizar el pasado reciente -- Referencias -- Back Matter.
Sommario/riassunto	En este libro se desentraña como Silencios muestra la continuidad "repetición" de la historia como catastrofe, esto es, la hermandad de las víctimas, entre el judío que sobrevive y el desplazado, o entre el quemado y el ahogado. Lo que está en juego con los trípticos y su compleja economía de las temporalidades es algo fundamental: el silencio mismo como interrupción de la lengua, lengua política que está historicistamente orientada siempre a dar cuenta, a dar razón, a funcionar como principio de razón de la historia. El silencio indagado por Silencios desactiva la relación logocéntrica entre sentido e historia, entre discurso e identidad, entre política y hegemonía, abriendo una fisura en el tiempo homogéneo y vacío del progreso, donde se adivina otro tiempo, otra relación al tiempo.
