Titolo	Rethinking Fisheries Governance : The Role of States and Meta-Governance // by Hoang Viet Thang
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Palgrave Macmillan, , 2018
ISBN	3-319-61055-4
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (221 pages) : illustrations
Disciplina	338.3727
Soggetti	Public policy Political science Wildlife Fish Public Policy Governance and Government Fish & Wildlife Biology & Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Chapter 1: Introduction -- Chapter 2: Critiques of ostrom's approach -- a view from fisheries governance -- Chapter 3: Critiques of fisheries co-management approach, and theoretical framework of the research -- Chapter 4: Akita Fisheries Cooperatives Associations, Japan -- Chapter 5: Vinh Giang Fisheries Association, Vietnam -- Chapter 6: Norwegian Fishers's Association, Norway -- Chapter 7: Conclusion.
Sommario/riassunto	This book explores how the state can foster collective action by fisher's communities in fisheries management. It presents a different perspective from Elinor Ostrom's classic work on the eight institutional conditions that foster collective action in natural resource management and instead emphasizes the role of the state in fisheries co-management, engaging a state-centric notion of 'meta-governance'. It argues that first, the state is required to foster collective action by fishers; and secondly, that the current fisheries co-management arrangements are state-centric. The study develops these arguments through the analysis of three case studies in Japan, Vietnam and

Norway. The author also makes a theoretical contribution to governance literature by developing Ostrom's 'society-centric' framework in a way which makes it more amenable to the analysis of state capacity and government intervention in a comparative context. This book will appeal to students and scholars of global governance, fisheries management, co-management, and crisis management, as well as practitioners of fisheries management.
