Autore	Tilzey Mark
Titolo	Political Ecology, Food Regimes, and Food Sovereignty : Crisis, Resistance, and Resilience // by Mark Tilzey
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Palgrave Macmillan, , 2018
ISBN	3-319-64556-0
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (VIII, 394 p.)
Disciplina	333.7
Soggetti	Environmental sociology Human geography Environmental geography Environmental Sociology Human Geography Environmental Geography
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1. Introduction -- Section 1: Political Ecology, Food Regimes, and Food Sovereignty -- 2. Political Ecology and Social Systems: An Integrated, but Differentiated, Theory of Socio-Natural Dynamics -- 3. Political Ecology, Capitalism, and Food Regimes -- 4. The 'First' or British 'Liberal' Food Regime 1840-1870; The 'Second' or 'Imperial' Food Regime 1870-1930 -- 5. The Rise and Demise of the 'Third' or 'Political Productivist' Food Regime 1930-1980 -- Section 2: Crisis and Resistance -- 7. The Neoliberal Food Regime in Crisis? -- 8. Crisis and Resistance: Reform or Revolution? -- Section 3: Country Case Studies -- 9. Prelude to the Country Case Studies: The Agrarian Question and Food Sovereignty Movements -- 10. Bolivia -- 11. Ecuador -- 12. Nepal -- 13. China -- Section 4: Resilience as Counter-Hegemony -- 14. 'Understanding the World in Order to Change It': What Might Food Sovereignty Look Like? Or a Normative Political Ecology as Livelihood Sovereignty.
Sommario/riassunto	This book asks how we are to understand the relationship between capitalism and the environment, capitalism and food, and capitalism

and social resistance. These questions come together to form a study of food regimes and the means by which capitalism organises both the environment and people to provision its distinctive system of ever-expanding consumption with food. Political Ecology, Food Regimes, and Food Sovereignty explores whether there are environmental limits to capitalism and its economic growth by addressing the ongoing and inter-linked crises of food, fossil fuels, and finance. It also considers its political limits, as the globally burgeoning 'precariat', peasants and indigenous people resist the further commodification of their livelihoods. This book draws from the field of Political Ecology to approach new ways of analysing capitalism, the environment and resistance, and also to propose new solutions to the current agro-ecological-economic crisis. It will be of particular interest to students and academics of Environmental Sociology, Human Geography, and Environmental Geography. .
