Sommario/riassunto	<p>Le bac professionnel fête cette année ses 30 ans. Les lycées professionnels, récemment réformés, accueillent environ 700 000 élèves. What is the role of the vocational curriculum throughout secondary education? What are the current and possible changes in context of current social evolutions? These papers offer a full and diversified view of the key issues. First, they combine sociological and didactic approaches,...</p>
