

1. Record Nr.	UNINA9910304147603321
Autore	Bocco Andrea
Titolo	The environmental impact of Sieben Linden ecovillage / / Andrea Bocco, Martina Gerace, Susanna Pollini
Pubbl/distr/stampa	2019 London ; ; New York : , : Routledge, , 2019 ©2019
ISBN	9780429628559 0429628552 9780429626913 0429626916 9780429032349 042903234X
Descrizione fisica	1 online resource (xiv, 99 pages) : illustrations
Classificazione	SCI030000SOC015000
Disciplina	307.1216
Soggetti	Ecovillages
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	The present study was born out of an agreement between the Sieben Linden community (Siedlungsgenossenschaft Okodorf e.G.) and the Politecnico di Torino (DIST), approved on May 9, 2013. The Politecnico team, led by professor Andrea Bocco, intended to perform an overall analysis of the way of living in the ecovillage, including a number of areas among which are agriculture, biodiversity, building, decision-making, diet, economy, energy, land husbandry, etc. The Sieben Linden community, on the other hand, was particularly interested in having a new ecological impact assessment done, a dozen years after that by the University of Kassel (Dangelmeyer et al. 2004).
