ISBN	0-7381-0657-7
Descrizione fisica	1 online resource (1328 pages)
Disciplina	005.43
Soggetti	POSIX (Computer software standard)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This standard is part of the POSIX" series of standards for applications and user interfaces to open systems. It defines the applications interface to a shell command language and a set of utility programs for complex manipulation. When the User Portability Utilities Option is included, the standard also defines a common environment for general-purpose time-sharing users on character-oriented display terminals.
