

1. Record Nr.	UNINA9910307950203321
Titolo	Journal of visualization
Pubbl/distr/stampa	[Tokyo, Japan], : [Visualization Society of Japan] [Berlin, Germany] : , : Springer
ISSN	1875-8975
Descrizione fisica	1 online resource
Disciplina	621.36
Soggetti	Visualization Image processing - Digital techniques Visualization - Experiments Information visualization Visualisation Traitement d'images - Techniques numeriques Visualisation - Experiences Visualisation de l'information Visualització (Informàtica) Animació per ordinador Periodicals. Revistes electròniques.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Sommario/riassunto	Visualization is an interdisciplinary imaging science devoted to making the invisible visible through the techniques of experimental visualization and computer-aided visualization. This official journal of the Visualization Society of Japan presents the latest visualization technology and its applications. It is published in full color in order to realize its mission of promoting a better understanding of complex phenomena.
