Sommario/riassunto	"Abortion is--and always has been--an arena for contesting power relations between women and men. When in 1973 the Supreme Court made the procedure legal throughout the United States, it seemed that women were at last able to make decisions about their own bodies. In the four decades that followed, however, abortion became ever more politicized and stigmatized. Abortion after Roe chronicles and analyzes what the new legal status and changing political environment have meant for abortion providers and their patients."--

Sommario/riassunto	"Le travail social est un domaine de recherche relativement recent (annees 60) qui produit des recherches fondamentales tournees vers

l'application. A la Haute école de travail social de Geneve, les recherches se concentrent actuellement autour de trois axes: la citoyennete; les nouveaux modes de regulations etatiques et associatifs ainsi que les pratiques professionnelles et modes d'intervention en travail social. Apres 50 ans d'existence, le Centre de recherche sociale (CERES) de la HETS-Geneve interroge ses pratiques. Quels types de politiques de recherche est developpee? Comment les problemes sociaux sont-ils abordes pour en faire des problematiques de recherche? Comment les donnees et analyses sont-elles transmises? S'agit-il d'ailleurs d'une transmission passive ou, au contraire, de co-reflexion ou co-production de recherches, menees, non seulement avec les partenaires de terrain, mais aussi avec les etudiant-e-s suivant les enseignements?"
