Sommario/riassunto	<p>In the past decades, translation studies have increasingly focused on the ethical dimension of translational activity, with an emphasis on reflexivity to assert the role of the researcher in highlighting issues of visibility, creativity and ethics. In Reflexive Translation Studies, Silvia Kadiu investigates the viability of theories that seek to empower translation by making visible its transformative dimension; for example, by championing the visibility of the translating subject, the translator's right to creativity, the supremacy of human translation or an autonomous study of translation.</p> <p>Inspired by Derrida's deconstructive thinking, Kadiu presents practical ways of challenging theories that argue reflexivity is the only way of developing an ethical translation. She questions the capacity of reflexivity to counteract the power relations at play in translation (between minor and dominant languages, for example) and problematises affirmative claims about (self-)knowledge by using translation itself as a process of critical reflection.</p>

Sommario/riassunto

This volume comprehensively examines how metropolitan Britons spoke and wrote about the British Empire during the short eighteenth century, from about 1730 to 1790. The work argues that following several decades of largely uncritical celebration of the empire as a vibrant commercial entity that had made Britain prosperous and powerful, a growing familiarity with the character of overseas territories and their inhabitants during and after the Seven Years' War produced a substantial critique of empire. This critique evolved out of a widespread revulsion against the behaviours exhibited by Britons overseas and built on a language of 'otherness' that metropolitans had used since the beginning of overseas expansion to describe its participants, the societies and polities that Britons abroad constructed in their new habitats. It used the languages of humanity and justice as standards to evaluate and condemn the behaviours of both overseas Britons and subaltern people in the British Empire, whether in India, the Americas, Africa or Ireland.
