

1. Record Nr.	UNINA9910317632103321
Titolo	Products and Applications of Biopolymers // edited by Casparus Johannes Reinhard Verbeek
Pubbl/distr/stampa	IntechOpen, 2012 [Place of publication not identified] : , : IntechOpen, , 2012
ISBN	953-51-6137-7
Descrizione fisica	1 online resource (234 pages)
Disciplina	535.84
Soggetti	Spectrum analysis Mass spectrometry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	It is interesting to consider that biopolymers are by no means new to this world. It is only because of our fascination with petrochemical products that these wonderful materials have been neglected for so long. Today we face a different challenge. Environmental pressure is pushing away from synthetic or petro-chemically derived products, while economic factors are pulling back from often more expensive "green" options. This book presents two aspects of biopolymers; potential products and some applications of biopolymers covering the current relevance of biopolymers.
