

1. Record Nr.	UNINA9910317776103321
Autore	Estrada Manuel (Medical scientist)
Titolo	Advances in Testosterone Action // edited by Manuel Estrada
Pubbl/distr/stampa	IntechOpen, 2018 London : , : IntechOpen, , 2018
ISBN	1-83881-694-1 1-78984-513-0
Descrizione fisica	1 online resource (x, 118 pages) : illustrations
Disciplina	612.6
Soggetti	Testosterone
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	This book describes recent findings on androgens. The chapters include information on physiological and pathological conditions such as alteration in testosterone production by Leydig cells, prostate cancer, and metabolic disorders. Moreover, this book refers to the potential use of androgens in assisted human reproduction treatments and bovine breeding. Since each chapter contains background information based on evidence and emphasizes basic science, this book is aimed at professionals who already have a basic understanding of the principles of androgen biochemistry and endocrine-related diseases.
