

1. Record Nr.	UNINA9910317810603321
Autore	Debska-Slizien Maria Alicja
Titolo	Urinary tract infection : the result of the strength of the pathogen, or the weakness of the host // edited by Tomas Jarzembowski and Agnieszka Daca
Pubbl/distr/stampa	IntechOpen, 2018 London, England : , : IntechOpen, , [2018] ©2018
ISBN	1-83881-304-7 1-78923-375-5
Descrizione fisica	1 online resource (126 pages) : illustrations
Disciplina	616.6
Soggetti	Urinary tract infections
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Urinary tract infection (UTI) is a problem so common and so significant in routine clinical practice that accurate diagnostics are especially important. In particular, complicated UTI is associated with an increased rate of therapy failures, as a result of possible biofilm formation on foreign elements and antibiotic resistance, as well as the increased possibility of an infection recurrence. These are the arguments for the constant search for novel diagnostic tools and techniques. These and many other vital topics regarding UTI complications, management, and treatment, in addition to antibiotic resistance and bacterial virulence traits allowing us to mitigate or avoid antibiotic action, are presented in this book.
