

1. Record Nr.	UNINA9910317821703321
Titolo	Congenital anomalies : from the embryo to the neonate // edited by Stefania Tudorache
Pubbl/distr/stampa	Croatia : , : IntechOpen, , 2018
ISBN	1-83881-391-8 1-78923-115-9
Descrizione fisica	1 online resource (544 pages) : illustrations
Disciplina	616.043
Soggetti	Abnormalities, Human Human embryo - Abnormalities Newborn infants Congenital Abnormalities
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Nowadays, nobody can imagine practicing obstetrics without using obstetrical ultrasound. Working in the prenatal diagnosis field requires dedication, patience, skills, experience, caution, and empathy. The concept of this book was guided by the desire to provide some help to the ultrasound operators. On a daily basis, they are confronted with the challenging task of ruling out or suspecting/confirming the diagnosis of fetal anomalies, either structural or chromosomal. The chapters of this book contain objective and exhaustive updated reviews of the pertinent literature, so that the reader would have a wide reference basis on each subject. Yet, many authors scan the fetus themselves or are directly involved with managing pregnancies with structural malformations or chromosomal anomalies. They kindly shared their personal experience and lessons learned over the years. This book is beneficial for all the professionals working in the prenatal diagnosis.
