

1. Record Nr.	UNINA9910318353503321
Titolo	IEEE Guide for the Application of Surge-Protective Components in Surge Protective Devices and Equipment Ports . Part 6, High Frequency Signal Isolation Transformers // IEEE
Pubbl/distr/stampa	New York : , : IEEE, , 2019
ISBN	1-5044-5345-X
Descrizione fisica	1 online resource (44 pages)
Collana	IEEE Std ; ; C62.42.6-2018
Disciplina	621.314
Soggetti	Electric transformers Radio frequency Electric transformers - Protection
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Surge protective components (SPCs) used in power and telecom surge protective devices (SPDs) and equipment ports are covered in the IEEE C62.42 guide series. The following are covered in this part of the series on high-frequency signal isolation-transformer technology SPCs: component construction, characteristics, and ratings.
