Sommario/riassunto	Modeling This video introduces three-dimensional art. Working with ceramic clay or play dough, children explore shape, texture, depth, height and width. We observe children shaping clay and using simple tools. The teachers are seen using songs and pictures and preparing story charts around the subject of clay. Teachers describe how the texture and smell of dough can be altered by adding sand and extracts, enhancing the children\'s sensory experiences. 29 Minutes Copyright ? 2000 Magna Systems Catalog Number: MG-1122-00-DVD ISBN: 1-55740-380-5 Preview Other Programs In This Series: Drawing And Finger Painting Painting Construction All Magna Systems programs are available for no-charge preview to schools, libraries, colleges and other institutions.
