

1. Record Nr.	UNINA9910325058103321
Autore	Gramsci, Antonio <1891-1937>
Titolo	Quaderni del carcere / Antonio Gramsci ; edizione critica dell'Istituto Gramsci ; a cura di Valentino Gerretana
Pubbl/distr/stampa	Torino : Einaudi, 2014
ISBN	978-88-06-22344-1
Descrizione fisica	4 v. ; 19 cm
Collana	ET : biblioteca
Altri autori (Persone)	Gerretana, Valentino
Disciplina	320.532 335.43
Locazione	bfs
Collocazione	320.532 GRA 2,1 320.532 GRA 2,2 320.532 GRA 2,3 320.532 GRA 2,4
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Volume primo Quaderni 1 - 5 (1929 - 1932) 2. Volume secondo Quaderni 6 - 11 (1930 - 1933) 3. Quaderni 19 - 20 (1932 - 1935) Volume quarto Apparato critico

2. Record Nr.	UNISALENTO991000470759707536
Autore	Fragali, Michele
Titolo	Del mutuo : art. 1813-1822 / Michele Fragali
Pubbl/distr/stampa	Bologna : Zanichelli Roma : Soc. ed. del Foro italiano, 1966
Descrizione fisica	xix, 489 p. ; 25 cm
Collana	Commentario del codice civile / a cura di Antonio Scialoja e Giuseppe Branca. Libro 4. : Delle obbligazioni
Disciplina	346.073 346.450922 348.023
Soggetti	Mutuo
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

3. Record Nr.	UNINA9910812509203321
Autore	White Halbert
Titolo	Asymptotic theory for econometricians // Halbert White
Publ/distr/stampa	Orlando, Florida ; ; London, [England] : , : Academic Press, Inc. : , : Academic Press, Inc. (London) Ltd., , 1984 ©1984
ISBN	1-4832-9442-0
Descrizione fisica	1 online resource (241 p.)
Collana	Economic Theory, Econometrics, and Mathematical Economics
Disciplina	330.015195 330/.01/5195
Soggetti	Econometrics - Asymptotic theory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Front Cover; Asymptotic Theory for Econometricians; Copyright Page; Dedication; Table of Contents; Preface; CHAPTER I. The Linear Model and Instrumental Variables Estimators; Text; References; For Further Reading; CHAPTER II. Consistency; II.1 Limits; II.2 Almost Sure Convergence; II.3 Convergence in Probability; II.4 Convergence in rth Mean; References; CHAPTER III. Laws of Large Numbers; III.1 Independent Identically Distributed Observations; III.2 Independent Heterogeneously Distributed Observations; III.3 Dependent Identically Distributed Observations III.4 Dependent Heterogeneously Distributed Observations III.5 Martingale Difference Sequences; References; CHAPTER IV. Asymptotic Normality; IV.1 Convergence in Distribution; IV.2 Hypothesis Testing; IV.3 Asymptotic Efficiency; References; CHAPTER V. Central Limit Theory; V.1 Independent Identically Distributed Observations; V.2 Independent Heterogeneously Distributed Observations; V.3 Dependent Identically Distributed Observations; V.4 Dependent Heterogeneously Distributed Observations; V.5 Martingale Difference Sequences; References; CHAPTER VI. Estimating Asymptotic Covariance Matrices VI.1 General Structure of $V_n$ VI.2 Case 1: $n$ (Block) Diagonal; VI.3 Case 2: $n$ (Block) Band Diagonal; VI.4 Case 3: General Case; References; CHAPTER VII. Efficient Estimation with Estimated Error Covariance

Matrices; VII.1 General Results; VII.2 Case 1: Contemporaneous Covariance; VII.3 Case 2: Heteroskedasticity; VII.4 Case 3: Serial Correlation; References; CHAPTER VIII. Directions For Further Study; VIII.1 Extensions of the Linear Model; VIII.2 Nonlinear Models; VIII.3 Other Estimation Techniques; VIII.4 Model Misspecification; References; Solution Set; Index

---

Sommario/riassunto

This book is intended to provide a somewhat more comprehensive and unified treatment of large sample theory than has been available previously and to relate the fundamental tools of asymptotic theory directly to many of the estimators of interest to econometricians. In addition, because economic data are generated in a variety of different contexts (time series, cross sections, time series--cross sections), we pay particular attention to the similarities and differences in the techniques appropriate to each of these contexts.
