

1. Record Nr.	UNINA9910326652903321
Titolo	Therapeutic advances in gastrointestinal endoscopy
Pubbl/distr/stampa	[Thousand Oaks, CA] : , : SAGE Publications, , [2019]-
ISSN	2631-7745
Descrizione fisica	1 online resource
Disciplina	616.330754505
Soggetti	Gastrointestinal system Endoscopy Endoscopy, Gastrointestinal Periodical Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Nota di contenuto	Comparative outcomes of endoscopic ultrasound-guided cystogastrostomy for peripancreatic fluid collections: a systematic review and meta-analysis -- The validity of breath collection bags method in detecting Helicobacter pylori using the novel BreathID®Hp Lab System: a multicenter clinical study in 257 subjects -- Safety of endoscopic sphincterotomy in patients undergoing antithrombotic treatment: a retrospective study -- Endoscopic side-by-side uncovered self-expandable metal stent placement for malignant hilar biliary obstruction -- Clinical impact of digital cholangioscopy in management of indeterminate biliary strictures and complex biliary stones: a single-center study -- Assessing spontaneous passage of prophylactic pancreatic duct stents by X-ray: is a radiology report adequate? -- Clinical course of biliary-type sphincter of Oddi dysfunction: endoscopic sphincterotomy and functional dyspepsia as affecting factors -- Endoscopic ultrasound guided biliary drainage: a multicenter retrospective experience of a technique slowly gaining acceptance in Egypt -- Challenging liver lesions in noncirrhotic patients: Report of three cases -- Successful treatment of large cavity esophageal disruptions with transluminal washout and endoscopic vacuum therapy: a report of two cases -- Cholangioscopy-guided steroid injection for

refractory post liver transplant anastomotic strictures: a rescue case series -- Endoscopic management of refractory benign oesophageal strictures -- Molecular endoscopic imaging: the future is bright -- Insights into the role of endoscopic ultrasound-guided vascular therapy -- Management of spontaneous and iatrogenic perforations, leaks and fistulae of the upper gastrointestinal tract.

Sommario/riassunto

Therapeutic Advances in Gastrointestinal Endoscopy is a peer-reviewed open access journal which focuses on pioneering efforts and innovative studies across all areas of gastrointestinal endoscopy with a strong focus on diagnostic and therapeutic advances.
