Descrizione fisica	1 online resource (XV, 452 p. 97 illus., 90 illus. in color.)
Collana	Principles of Specialty Nursing, Under the auspices of the European Specialist Nurses Organisations (ESNO), , 2366-875X
Disciplina	610.73698
Soggetti	Nursing Oncology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- Chapter 1. Basis of carcinogenesis -- Chapter 2. Epidemiology and prevention -- Chapter 3: Basic and new treatments -- Chapter 4: Targeted therapies -- Chapter 5 : Immunotherapies -- Chapter 6 : Robotic surgery -- Chapter 7 : Forming and maintaining interpersonal relationships, communication skills -- Chapter 8: Nursing diagnosis specific to oncology -- Chapter 9: Nursing counseling after announcement of the diagnosis, coordination of the patient pathway -- Chapter 10: Therapeutic education -- Chapter 11: Specificity of breast cancer -- Chapter 12: Gynaecology cancers -- Chapter 13: Prostate cancer -- Chapter 14: Bladder and renal cancers -- Chapter 15: Melanoma cancer -- Chapter 16: Lung cancer -- Chapter 17: GI cancer -- Chapter 18: Pancreas cancer -- Chapter 19: Haematology -- Chapter 20: How to progress in your specialty -- Chapter 21: North American models -- Chapter 22: European Model -- Chapter 23: Added Value of the associative networking in oncology -- Chapter 24: Children -- Chapter 25 : Teenager and Young Adults -- Chapter 26 : Elderlies -- Chapter 27: Rare diseases -- Chapter 28: Supportive care -- Chapter 29: Genetic counselling -- Chapter 30: Oncology nursing in the primary care -- Chapter 31 : Ehealth -- Chapter 32: Patient as actor of his treatment, shared decision making.
Sommario/riassunto	This book provides a unique overview of oncology nursing care in a

new health environment, one in which oncology nurses play an increasingly important role. In this regard, it addresses not only the biomedical aspects of new drugs but also the challenges they pose in day-to-day nursing practice. It also highlights the new skills that oncology nurses will need to develop in light of the changing care setting. Drawing on evidence-based practice in Europe and around the globe, the book offers a holistic approach to nursing for adult and pediatric patients. Written by respected professionals in the field, it provides nurses interested in oncology with clear and comprehensive information on the specific abilities required, with a focus on therapeutic education, supportive care, genetic counseling and e-health. In addition, it addresses the new role of patients as decision makers and full partners throughout their treatment cycle.
