

1. Record Nr.	UNINA9910337482603321
Titolo	Interventional Breast Procedures : A Practical Approach / / edited by Cherie M. Kuzmiak
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-13402-4
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (183 pages)
Disciplina	616.99449075 616.99449
Soggetti	Interventional radiology Interventional Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1 – Interventional Procedures: Patient Centered Approach -- Chapter 2 – Ultrasound Guided Procedures -- Chapter 3 – DBT Guided Biopsy -- Chapter 4 – Mammographically-Guided Procedures -- Chapter 5 – MRI –guided Biopsy Procedures -- Chapter 6 – Radiology- Pathology correlation.
Sommario/riassunto	This book provides a comprehensive description and explanation of how to perform image-guided percutaneous procedures of the breast and how to manage the results. The authors of the book are expert radiologists trained in breast imaging and are dedicated to patient care and teaching. The intent of this book is that it is used as an educational tool to help develop interventional breast procedural skills and how to apply them in a clinical setting. The book is unique in that it pertains exclusively to percutaneous image-guided breast procedures with a patient-centered focus. Each image modality will be discussed in a separate chapter – ultrasound, mammography, and MRI. Also included is a dedicated chapter focusing on the novel technique of digital breast tomosynthesis-guided procedures. To conclude the book, there is a chapter devoted to radiology/pathology concordance with lesion management. This is an ideal guide for practicing radiologists and physicians in training.
