

1. Record Nr.	UNINA9910337488803321
Autore	Kalhor Neda
Titolo	Mediastinal Pathology / / by Neda Kalhor, Cesar Moran
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-319-98980-4
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (599 pages) : illustrations
Disciplina	616.99227
Soggetti	Pathology Surgery Cancer - Treatment Interventional radiology Cancer Therapy Interventional Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The Thymus: Practical Anatomy and Histology -- Imaging of Mediastinal Tumors -- Surgical Approaches to the Mediastinum -- Benign Tumors and Tumor-Like Conditions -- Salivary Gland Type Tumors -- Staging for Thymoma and Thymic Carcinoma -- Thymoma -- Thymic Carcinoma -- Neuroendocrine Neoplasms -- Germ Cell Tumors -- Neurogenic Tumors -- Mesenchymal Tumors -- Lymphoproliferative Disorders.
Sommario/riassunto	This book provides a practical approach to the diagnosis of the diverse tumors that can be seen in the mediastinum. It discusses not only a historical perspective of what has been done in the past but also the assessments of those changes from experts in their fields. By doing so, the text aims to improve the treatment and assessment of patients with mediastinal tumors. This book focuses on daily practice, as pathologists are confronted with this type of pathology regularly. In some areas, it is inevitable that current practice calls for ancillary tests, including immunohistochemistry and molecular techniques. Mediastinal Pathology should be useful not only to general surgical pathologists or thoracic surgical pathologists, but also to thoracic surgeons,

radiologists, and oncologist, who are called upon to care for patients with mediastinal tumors. .
