

1. Record Nr.	UNINA9910337491803321
Autore	García Joaquín J
Titolo	Atlas of Salivary Gland Pathology // by Joaquín J. García
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-319-09021-6
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (209 pages)
Disciplina	616.316
Soggetti	Pathology Surgery Oncology Interventional radiology General Surgery Interventional Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Gross Anatomy -- Microscopic Anatomy -- Intraoperative Examination -- Gross Examination -- Microscopic Examination -- Acinic Cell Carcinoma -- Adenoid Cystic Carcinoma -- Basal Cell Adenoma -- Basal Cell Adenocarcinoma -- Canalicular Adenoma -- Carcinosarcoma -- Clear Cell Carcinoma -- Epithelial-Myoepithelial Carcinoma -- Intraductal Carcinoma -- Lymphadenoma -- Lymphoepithelial Carcinoma -- Mucoepidermoid Carcinoma -- Myoepithelioma -- Myoepithelial Carcinoma -- Oncocytoma -- Oncocytic Carcinoma -- Pleomorphic Adenoma -- Pleomorphic Adenoma, Carcinoma Ex -- Polymorphous Adenocarcinoma -- Salivary Duct Carcinoma -- Secretory Carcinoma -- Small Cell Neuroendocrine Carcinoma -- Warthin's Tumor.
Sommario/riassunto	Surgical pathologists play a central role in the management of salivary gland disease by surgeons, radiation oncologists, and medical oncologists. Although salivary gland neoplasms are uncommon overall, their histopathologic diversity and overlap command the attention of practicing surgical pathologists. The Atlas of Salivary Gland Pathology provides a systematic approach to diagnostic classification of common

and uncommon salivary gland neoplasms. Emphasis is placed on histomorphology and cost-effective use of histochemistry, immunohistochemistry, and cytogenetics in challenging cases. The Atlas of Salivary Gland Pathology represents a gross and microscopic visual tour of salivary gland neoplasms for aspiring and practicing diagnosticians.
