

1. Record Nr.	UNINA9910337509503321
Titolo	Cancer Screening in Inflammatory Bowel Disease : A Guide to Risk Management and Techniques // edited by Joseph D. Feuerstein, Adam S. Cheifetz
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-15301-0
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (XI, 174 p. 14 illus. in color.)
Disciplina	616.33 616.344
Soggetti	Gastroenterology Rectum—Surgery Oncology Gastroenterology Colorectal Surgery Oncology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Epidemiology and Risk Factors for Colorectal Cancer in Inflammatory Bowel Diseases -- Screening for Colon Cancer in Inflammatory Bowel Disease -- Skin Cancer Risk and Screening in Patients with Inflammatory Bowel Disease -- Female Specific Cancer Risks and Screening in Inflammatory Bowel Disease -- Lymphoma Risk and Screening in Inflammatory Bowel Disease -- Pouch Neoplasia following IPAA in Patients with Underlying Inflammatory Bowel Diseases -- Other Cancers: Small Bowel Cancers, Cholangiocarcinoma, Urinary Tract, and Anal Cancer Risk and Screening in Inflammatory Bowel Disease -- Cancer Risks and Screening with Current and Emerging Drug Therapies in Inflammatory Bowel Diseases -- Preventing Colorectal Cancer in Patients with Inflammatory Bowel Diseases: Chemopreventive and Surgical Approaches -- Cancer Risk and Screening in Pediatric Patients -- Colorectal Cancer Risk and Screening in Geriatric Patients -- Use of Biologic Drugs Following an Initial Diagnosis of Malignancy.

## Sommario/riassunto

This book provides a concise, yet comprehensive overview of cancer risks in patients with inflammatory bowel disease (IBD), as well as the screening modalities used to reduce these risks. Each chapter presents a major malignancy that patients with IBD are at risk from, stemming from the disease itself or from the medications used to treat the disease. Malignancies covered include colorectal cancer, skin cancer, lymphoma, and other cancers. Cancer risk and screening with current and emerging drug therapies are also discussed. Written by experts in the field, *Cancer Screening in Inflammatory Bowel Disease: A Guide to Risk Management and Techniques* is a valuable resource for gastroenterologists, colorectal surgeons, and primary care physicians who treat and manage patients with inflammatory bowel disease.
