3. Record Nr.	UNINA9910337511403321
Titolo	Textbook of Neuroanesthesia and Neurocritical Care : Volume I - Neuroanesthesia // edited by Hemanshu Prabhakar, Zulfiqar Ali
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2019
ISBN	981-13-3386-6
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (XIX, 529 p. 61 illus., 45 illus. in color.)
Disciplina	616.80428
Soggetti	Anesthesiology Critical care medicine Nervous system - Surgery Neurology Intensive Care Medicine Neurosurgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Section I - Fundamentals of neuroanesthesia -- Section II - Pre-anesthetic evaluation -- Section III - Neuromonitoring -- Section IV - Anesthesia for neurosurgery -- Section V - Co-existing problems -- Section VI - Special considerations -- Section VII - Allied considerations -- Section VIII - Transfusion practice -- Section IX - Near misses -- Section X - Pain management -- Section XI - Special topics.
Sommario/riassunto	This two-volume book offers a comprehensive guide to anesthetic management and critical care management in neurosurgical and neurological patients. This first volume focuses on neuroanesthesia. The book begins with basic information on neuroanesthesia, extensively discussing the anatomy of the brain and spine, physiology and relevant pharmacology. Special considerations for pregnant, pediatric and geriatric patients are covered in separate chapters. Each neurosurgical condition is discussed in a standard format relevant for neurosurgical patients, and each chapter, prepared by experts in the field, includes ample illustrations and flowcharts. Information is also provided on the latest evidence-based approaches, robotic surgery and gene therapy. The book offers a valuable resource for all residents,

fellows and trainees in the fields of neuroanesthesia and anesthesia; it will also benefit practitioners and consultants. .
