1. Record Nr.	UNINA9910337571803321
Titolo	IoT as a Service : 4th EAI International Conference, IoTaaS 2018, Xi'an, China, November 17–18, 2018, Proceedings / / edited by Bo Li, Mao Yang, Hui Yuan, Zhongjiang Yan
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-14657-X
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (XIII, 498 p. 283 illus., 204 illus. in color.)
Collana	Lecture Notes of the Institute for Computer Sciences, Social Informatics and Telecommunications Engineering, , 1867-8211 ; ; 271
Disciplina	004.678
Soggetti	Computer networks
	Computer simulation
	Mathematical statistics
	Application software
	Computer Communication Networks
	Simulation and Modeling
	Probability and Statistics in Computer Science
	Information Systems Applications (incl. Internet)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	IoT as a service -- networking technology for IoT -- multiple access and communication technologies for IoT -- workshop on edge computing for 5G/IoT -- workshop on green communications for Internet of Things -- workshop on space-based Internet of Things -- ad hoc networks -- wireless local area networks -- network protocols -- network Architecture -- network services -- short-range networks -- network performance evaluation -- network security -- mobile computing -- wireless communication.
Sommario/riassunto	This book constitutes the refereed post-conference proceedings of the Fourth International Conference on IoT as a Service, IoTaaS 2018, which took place in Xi'an, China, in November 2018. The 50 revised full papers were carefully reviewed and selected from 83 submissions. The technical track present IoT-based services in various applications. In

addition, there are three workshops: international workshop on edge computing for 5G/IoT, international workshop on green communications for internet of things, and international workshop on space-based internet of things.
