Nota di contenuto	Wireless communications and networking -- next generation WLAN -- big data networks -- cloud communications and networking -- ad hoc and sensor networks -- satellite and space communications and networking -- optical communications and networking -- information and coding theory -- multimedia communications and smart networking -- green communications and computing -- signal processing for communications -- network and information security -- machine-to-machine and IoT -- communication QoS -- reliability and modeling -- cognitive radio and networks -- smart internet of things modeling -- pattern recognition and image signal processing -- digital audio and video signal processing -- antenna and microwave

communications -- radar imaging and target recognition -- video coding and image signal processing.

## Sommario/riassunto

The book constitutes the refereed proceedings of the 13th EAI International Conference on Communications and Networking, held in October 2018 in Chengdu, China. The 71 papers presented were carefully selected from 114 submissions. The papers are organized in topical sections on wireless communications and networking, next generation WLAN, big data networks, cloud communications and networking, ad hoc and sensor networks, satellite and space communications and networking, optical communications and networking, information and coding theory, multimedia communications and smart networking, green communications and computing, signal processing for communications, network and information security, machine-to-machine and IoT, communication QoS, reliability and modeling, cognitive radio and networks, smart internet of things modeling, pattern recognition and image signal processing, digital audio and video signal processing, antenna and microwave communications, radar imaging and target recognition, and video coding and image signal processing.
