Sommario/riassunto	This edited volume gives an insight into climate and energy protection in China and the European Union (EU). By taking a closer look at the EU and China separately, the book presents the current situation in terms of environmental policy and energy use/ consumption in EU as well as in China. The book broaches the collaboration of the EU and China regarding climate and energy protection. The target audience primarily comprises research experts in the field of climate research as well as public decision makers. .
