

1. Record Nr.	UNINA9910337714103321
Titolo	Social Networks and Surveillance for Society // edited by Tansel Özyer, Sambit Bakshi, Reda Alhajj
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-319-78256-8
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (VII, 179 p. 45 illus. in color.)
Collana	Lecture Notes in Social Networks, , 2190-5428
Disciplina	302.30285
Soggetti	Social sciences—Data processing Social sciences—Computer programs Data mining Social media Application software Computational Social Sciences Data Mining and Knowledge Discovery Social Media Computer Appl. in Social and Behavioral Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter1. Frauds in Online Social Networks: A Review -- Chapter2. Leveraging Social Network Analysis and Cyber Forensics Approaches to Study Cyber Propaganda Campaigns -- Chapter3. Hiding Self on Facebook Sidebar Ticker, Surveillance and Privacy -- Chapter4. Identifying Influential Spreaders in Complex Networks with Probabilistic Links -- Chapter5. Decentralized Online Social Networks Architectures -- Chapter6. We Shall Not Only Survive To The Future of Social Networks -- Chapter7. A Centrality Measure for Directed Networks: m - Ranking Method -- Chapter8. Searching on Facebook Through the Lens of the Concept of Privacy -- Chapter9. Emergency Detection and Evacuation Planning Using Social Media -- Chapter10. Social Network Analysis to Combat Terrorism: 2015 Paris Attacks.
Sommario/riassunto	This book focuses on recent technical advancements and state-of-the-art technologies for analyzing characteristic features and probabilistic

modelling of complex social networks and decentralized online network architectures. Such research results in applications related to surveillance and privacy, fraud analysis, cyber forensics, propaganda campaigns, as well as for online social networks such as Facebook. The text illustrates the benefits of using advanced social network analysis methods through application case studies based on practical test results from synthetic and real-world data. This book will appeal to researchers and students working in these areas. .
