Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-18826-4 9783030188269 (Proquest Ebook Central) 9783030188252
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (XIX, 389 p. 60 illus.)
Collana	Science Across Cultures: The History of Non-Western Science, , 2215-1761 ; ; 9
Disciplina	301
Soggetti	Anthropology Geriatrics Social sciences Humanities Aging Culture - Study and teaching Political sociology Humanities and Social Sciences Ageing Cultural Studies Political Sociology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	The Evolution of Funerary Ritual in Urbanizing China -- Belief in Karma and Moka at the End of Life in India- Death and the Afterlife in Japan -- Return to Nature? Secularism and Politics of Death Space in Hong Kong -- Death and Dying: Belief, Fear and Ritual in Vietnamese Culture -- Negotiating Traditions and Modernity: Chinese Death Rituals in Singapore -- The Bureaucratic Professionalization of Funeral Rites in Tehran's Behesht-e Zahra Cemetery -- Death and Burial Practices in Contemporary Zulu Culture, South Africa -- Death in Botswana: Life

Among the Ashes -- Ancestors and Death: From West Africa to Southwest Europe -- Living Coffins and Death Among the Ga of Ghana -- The Yoruba of Nigeria and the Ontology of Death and Burial -- Transformation of Funeral Rituals in Togo -- Rituals Around Life and Death in Mexico; The Day of the Dead -- Continuity and Ruptures in Brazilian Funeral Rites -- The Right to a Dignified Death in Argentina -- Superstar-Saints and Wandering Souls: The Cemetery as a Cultural Hotspot in Latin American Cities -- He taonga tuku iho: Indigenous End of Life and Death Care Customs of New Zealand Mori -- Communicating with the Dead in an Australian Aboriginal Culture: The Tiwi from Melville and Bathurst Islands -- Death and Dying in American Indian Cultures -- The Beauty of the Afterlife Among the Inuit of Nunavut -- Eternity Calling: Modernity and the Revival of Death and the Afterlife.

Sommario/riassunto

Death Across Cultures: Death and Dying in Non-Western Cultures, explores death practices and beliefs, before and after death, around the non-Western world. It includes chapters on countries in Africa, Asia, South America, as well as indigenous people in Australia and North America. These chapters address changes in death rituals and beliefs, medicalization and the industry of death, and the different ways cultures mediate the impacts of modernity. Comparative studies with the west and among countries are included. This book brings together global research conducted by anthropologists, social scientists and scholars who work closely with individuals from the cultures they are writing about.

Sommario/riassunto

Volume 3 of *Gulf of Mexico Origin, Waters, and Biota*; a series edited by John W. Tunnell Jr., Darryl L. Felder, and Sylvia A. Earle A continuation of the landmark scientific reference series from the Harte Research Institute for Gulf of Mexico Studies, *Gulf of Mexico Origin, Waters, and Biota*, Volume 3, *Geology* provides the most up-to-date, systematic, cohesive, and comprehensive description of the geology of the Gulf of Mexico Basin. The six sections of the book address the geologic history, recent depositional environments, and processes offshore and along the coast of the Gulf of Mexico. Scientific research in the Gulf of Mexico region is continuous, extensive, and has broad-based influence upon scientific, governmental, and educational communities. This volume is a compilation of scientific knowledge from highly accomplished and experienced geologists who have focused most of their careers on gaining a better understanding of the geology of the Gulf of Mexico. Their research, presented in this volume, describes and explains the formation of the Gulf Basin, Holocene stratigraphic and sea-level history, energy resources, coral reefs, and depositional processes that affect and are represented along our Gulf coasts. It provides valuable synthesis and interpretation of what is known about the geology of the Gulf of Mexico. Five years in the making, this monumental compilation is both a lasting record of the current state of knowledge and the starting point for a new millennium of study.
