Sommario/riassunto

Through a global series of case studies, this pioneering book delves into refugee entrepreneurship - a major economic, political and social issue emerging as a top priority. Stories from Australia, Germany, Pakistan and many other countries, highlight the obstacles facing refugees as they try to integrate and set up businesses in their new countries. Engaging contributions set the stage for a cross-analysis of the particularities and limitations faced by refugee entrepreneurs, culminating in an extended discussion about the future implications of refugee entrepreneurship for theory, policy and practice. This interdisciplinary book explores the motivations and drivers of refugee entrepreneurship, making it an insightful read not only for those engaged in entrepreneurship, but also for those interested in migration studies from a variety of academic disciplines.
