

1. Record Nr.	UNINA9910337826203321
Autore	Nair Kiran Krishnan
Titolo	Small satellites and sustainable development - solutions in international space law // Kiran Krishnan Nair
Pubbl/distr/stampa	Cham : , : Springer International Publishing, , [2019] ©2019
ISBN	9783030186203 3-030-18620-2
Descrizione fisica	1 online resource (91 pages)
Collana	SpringerBriefs in Law, , 2192-8568
Disciplina	341.7577
Soggetti	Law of the sea International law Aeronautics - Law and legislation Aerospace engineering Astronautics Technological innovations Law of the Sea, Air and Outer Space Aerospace Technology and Astronautics Innovation and Technology Management Dret espacial Medi ambient espacial Satèl·lits petits
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Introduction -- The Principle of Peaceful Use -- Converging Interests -- Converging on Vulnerabilities -- Conclusion and Summary.
Sommario/riassunto	This book analyses the ability of existing international law to address common vulnerabilities in connection with the recent emergence of small satellites, and how finding consensus in this context can pave the way to the sustainable development of space. The rise of small satellite constellations has produced a paradigm shift in the use of space capabilities, suddenly making them far more available and affordable. This development has in turn sparked substantial global interest in

finding ways to capitalize on the new opportunities and to mitigate the challenges posed by these mega-constellations. This work targets precisely that need, offering a valuable asset for readers from the commercial space industry, investors, lawyers, researchers, academics and policymakers alike. .
