1. Record Nr.   UNINA9910337836403321

   Titolo   Artificial Intelligence in Medicine : 17th Conference on Artificial Intelligence in Medicine, AIME 2019, Poznan, Poland, June 26–29, 2019, Proceedings / / edited by David Riaño, Szymon Wilk, Annette ten Teije

   Pubbl/distr/stampa Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019

   ISBN   3-030-21642-X

   Edizione   [1st ed. 2019.]

   Descrizione fisica 1 online resource (XVIII, 429 p. 136 illus., 98 illus. in color.)

   Collana   Lecture Notes in Artificial Intelligence ; ; 11526

   Disciplina   006.3

   Soggetti   Artificial intelligence
                       Computers
                       Computer organization
                       Optical data processing
                       Application software
                       Mathematical statistics
                       Artificial Intelligence
                       Information Systems and Communication Service
                       Computer Systems Organization and Communication Networks
                       Computer Imaging, Vision, Pattern Recognition and Graphics
                       Computer Applications
                       Probability and Statistics in Computer Science

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Nota di contenuto   Deep Learning -- Simulation -- Knowledge Representation -- Probabilistic Models -- Behaviour Monitoring -- Clustering, Natural Language Processing, and Decision Support -- Feature Selection -- Image Processing -- General Machine Learning -- Unsupervised Learning.

   Sommario/riassunto This book constitutes the refereed proceedings of the 17th Conference on Artificial Intelligence in Medicine, AIME 2019, held in Poznan, Poland, in June 2019. The 22 revised full and 31 short papers presented were carefully reviewed and selected from 134 submissions.

The papers are organized in the following topical sections: deep learning; simulation; knowledge representation; probabilistic models; behavior monitoring; clustering, natural language processing, and decision support; feature selection; image processing; general machine learning; and unsupervised learning.
