Sommario/riassunto	After 30 years of projects, aid disbursement, technical assistance, and conditionality, this book maps out the extent to which African states have cleaved to neoliberal directives. It suggests that neoliberal 'progress' in Africa is notably limited in spite of the resources behind it and the lack of alternatives to it.

Sommario/riassunto	This book constitutes the proceedings of the 14th International Conference on Green, Pervasive, and Cloud Computing, GPC 2019, held in Uberlândia, Brazil, in May 2019. The 17 full papers included in this volume were carefully reviewed and selected from 38 initial submissions. They are organized in the following topical sections: machine learning; Internet of Things and mobility; cloud and related technologies.
